Success Story

From Pain to Peace, Koushi's Journey of Healing and Restoration

Koushi, a woman living in the Kilinochchi region, has been receiving inner healing ministry from us over the past six months through phone communication. When she first spoke with us, she was in deep distress due to the family problems caused by her husband's extramarital affair.

Koushi's husband physically abused and emotionally tormented her, refused to provide money for family expenses, and struggled with excessive alcohol consumption, causing her immense suffering.

Additionally, she was burdened with a debt of 1.5 million rupees, forcing her to live in constant distress. With deep prayers and a sincere burden, we continuously ministered healing to her. At the beginning of March, when Koushi spoke to us, she joyfully shared that, miraculously, all her financial difficulties had been resolved smoothly. Furthermore, her husband had a change of heart, reconciled with her, and was now living happily with his family

Educational Assistance

A Miracle on Wheels

MaryShabeena, a woman from a place called Karainagar, came to us three months ago. When we ministered inner healing to her, she shared her greatest need with us—she urgently required a two-wheeler for her brother’s education. At that time, we were not in a position to provide it ourselves.

However, we connected with another organization that was able to purchase the two-wheeler for her. This brought immense joy and emotional relief to her life, which was truly heartwarming to witness.

Revealing the Truth

Thirukunam introduced himself to us as a minister, but from his speech, we realized that there was no truth in his life. Therefore, we clearly explained his situation to him and provided him with inner healing ministry.
