From Amma's Heart

Dear precious people,

As I write this, my heart is filled with gratitude to God for the Jaffna Healing Centre and the staff, who continues to serve with love, faithfulness, and compassion. Month after month, I see the dedication of our staff as they walk alongside the people of Jaffna, bringing hope into places that have known deep pain. The work is not just a ministry—it is a reflection of God's heart, reaching out to the broken, restoring dignity, and rebuilding lives with His love.

The vision God has placed before us is to see the broken walls of Jaffna rebuilt—not only the physical walls, but the broken hearts, wounded memories, and hidden places affected by years of war and suffering. Through inner healing, trauma healing, prayer, and practical acts of two Medical Mobile Missions a month -One village in Jaffna and one village in the Northern Province of love, we believe God is bringing restoration to families and communities. Every life touched, every tear comforted, and every step toward healing is part of His beautiful work of renewal.

I want to honour and encourage every member of the team. Your patience, perseverance, and willingness to serve even through challenges are precious in God's sight. Continue to carry this vision with love, knowing that what you do has eternal value. May the Lord strengthen you, fill you with His grace, and continue to use your hands and hearts to bring healing, hope, and transformation to Jaffna.

With much love,
Amma

FREE MOBILE MEDICAL CAMP

BRINGING HEALING TO BODY, MIND, AND SPIRIT.

By the abundant grace of God, a Medical Camp and Inner Healing Ministry were successfully conducted on 17 June 2026 through the Jesuran Healing Center in Navalady, Ariyalai East (GN Division J/90), Jaffna District.

Navalady, Ariyalai East is home to approximately 176 families. Due to the displacement caused by the war in 1995, the people of this community were forced to leave their homes and were later resettled in the village around 2000. The village is predominantly inhabited by Hindu families and has a large population of children and young families.

The community continues to face numerous challenges, including a shortage of safe drinking water, the need for sustainable livelihood opportunities, dependence on daily wage labour, agriculture as the primary source of income, limited educational awareness, and the growing concern of early marriages.

While preparing for this medical outreach, we encountered an unexpected challenge when the doctor who usually serves with us was unable to attend. This caused us great concern about whether the medical camp could proceed as planned. However, God had not forgotten Navalady. At a time when there seemed to be no way forward, the Lord, in His faithfulness, graciously provided Dr. Sharmila, a Hindu doctor, to serve alongside us. Without hesitation, she willingly joined the outreach and served the community with compassion and dedication. Through her support, God enabled the medical camp to be conducted successfully and blessed the entire programme. Once again, we were reminded that God never abandons His people and always provides the right person at the right time to accomplish His work.

More than 50 people attended the medical camp and received medical consultations and the necessary treatment. We express our heartfelt gratitude to Dr. Sharmila and Nurse Mohana for their dedicated and compassionate service.

Alongside the medical services, the Inner Healing Ministry brought comfort and renewed hope to many. As participants surrendered their burdens and emotional wounds before the Lord, they experienced His peace, comfort, and encouragement through prayer.

This outreach was a powerful reminder that God has not forgotten Navalady. Despite the challenges, the Lord faithfully guided every step and enabled the ministry to be carried out successfully. We continue to pray that God will richly bless every family in Navalady, bringing lasting transformation, healing, peace, and hope into their lives.

IN A COMMUNITY THAT FELT FORGOTTEN, GOD REVEALED HIS LOVE ONCE AGAIN.

By the abundant grace of God, a Medical Camp and Inner Healing Ministry were successfully conducted on 29 June 2026, from 9:00 a.m. to 3:30 p.m., through the Jesuran Healing Center in Periya Salamban, Thattai Malai, Ottisuttan (GN Division - MUL/63).

Periya Salamban is home to approximately 115 families, including 15 Christian families and 15 female-headed households. The village is predominantly Hindu and has a large population of children and young families.

The community continues to face many hardships. Many families are still living with the effects of the war, and the area has a low level of educational awareness. Access to clean drinking water remains a significant challenge. Most families depend on agriculture and daily wage labour for their livelihood, while many live in government housing scheme homes. Early marriages, limited transportation facilities, and the fact that the nearest hospital is approximately 5 kilometres away make access to healthcare even more difficult.

As we prepared for this medical outreach, we received disappointing news that the doctor who usually serves with us was unable to attend. Although this brought concern, we trusted that God had already prepared a way. Once again, the Lord proved His faithfulness. He graciously provided Dr. Mithra, a Hindu doctor from Puttur, who willingly joined our outreach. She served joyfully throughout the entire day, treating every patient with kindness, patience, and genuine compassion. She took time to listen, encourage, and care for each individual with great dedication, becoming a wonderful blessing to the community.

By the end of the day, more than 125 people had received medical consultations and treatment. Dr. Mithra herself was amazed that she had been able to care for such a large number of patients in a single day. It was a beautiful reminder that when God calls us to serve, He also provides the strength, wisdom, and grace needed to accomplish His work. We truly witnessed the Lord doing great things among His people.

Alongside the medical services, the Inner Healing Ministry brought comfort, hope, and spiritual encouragement to many. As people brought their burdens, painful memories, and emotional wounds before the Lord, they experienced His peace, healing, and renewed hope through prayer.

We are also deeply grateful to the Pastor and his wife of the local prayer church, who welcomed our team with genuine love and hospitality. They cared for us throughout the day, supported every aspect of the outreach, and encouraged us as we ministered to the people. Their partnership and servant-hearted spirit played a significant role in the success of this ministry.

This outreach was a powerful reminder that God has not forgotten Ottisuttan. Even when obstacles arose and the way forward seemed uncertain, the Lord faithfully made a way and provided every need. Through this ministry, many people experienced not only physical healing but also the love, compassion, and hope of Christ.

We continue to pray that God will richly bless every family in Periya Salamban, bringing lasting transformation, healing, peace, and renewed hope to this community.

Our sincere gratitude goes to Dr. Mithra for her selfless and compassionate service, Nurse Mohana the Pastor and his wife of the Prayer Church for their loving hospitality, and Transformation Church for their faithful prayers, generous support, and partnership in this ministry.

Because of your kindness and unwavering commitment, the love of Christ reached a community in need, and many lives were touched with hope and healing. May the Lord richly bless each one of you.

June Special Prayer Gathering

Empowering Faith Through Prayer

Jesuran Healing Centre Weekly
Prayer Gathering

Prayer Is the Strength of Our Ministry.

By the grace of God, we were blessed to hold our June Prayer Gathering with hearts filled with gratitude and expectation. This special time brought together our pastors and staff members in fellowship as we worshipped the Lord, sought His presence, and encouraged one another through prayer.

The gathering, held at our office premises, was a meaningful time of spiritual renewal. As we united in prayer, we experienced God's peace, strength, and guidance, refreshing our hearts and deepening our commitment to the ministry He has entrusted to us.

During the prayer session, we prayed for the ongoing ministries of the Jesuran Healing Center, the individuals, families, and communities we continue to serve, as well as the upcoming outreach programmes and medical camps. We also sought God's wisdom, protection, and direction for every member of our team as we faithfully carry out His work.

The meeting concluded with a time of fellowship and thanksgiving, strengthening the bond among our pastors and staff members and reminding us of the importance of serving together in unity and love.

We thank God for another blessed opportunity to come together in prayer. We continue to trust Him to lead us in every step, empowering us to serve with compassion, faithfulness, and the love of Christ. May He continue to strengthen our ministry and use us to bring healing, hope, and transformation to many lives.

A STORY OF FAITH, HEALING, AND HOPE

A Journey from Loneliness to Hope

At 73 years of age, this mother is living alone, as all three of her children are married and residing in different places. With very little support or assistance from her children, she faces the challenges of daily life on her own.

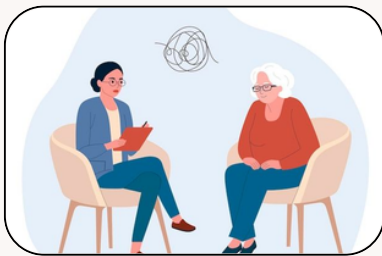

She suffers from several health conditions, including high blood pressure, high cholesterol, and diabetes. To meet her daily needs, she had been working as a laborer. However, after accidentally falling and sustaining a fractured jawbone, she is now unable to continue working.

The combination of physical pain, financial hardship, and loneliness had left her deeply distressed and emotionally burdened. During our visit, she was lovingly counseled and encouraged. An inner healing prayer ministry was conducted, helping her surrender her hurts, fears, and burdens to the Lord.

Through prayer, she experienced comfort, renewed hope, and inner peace. Encouraged by God's love and grace, she left with a refreshed spirit and a renewed strength to face the challenges of life.

Renewed Hope in the Midst of Life's Challenges

This 43-year-old woman had been experiencing deep emotional distress due to ongoing family difficulties. In particular, the continuous challenges and struggles in her son's life had become a heavy burden on her heart.

Through prayer, she experienced God's comfort, peace, and reassurance. Despite the difficulties she continues to face, she received renewed strength and hope to move forward with confidence. Her heart was refreshed with the assurance that God is with her and that there is hope for the future.

Burdened by the many pressures of life, she was visited and lovingly encouraged through counseling and prayer. An inner healing ministry was conducted, helping her surrender her hurts, worries, and burdens to the Lord.

In addition, certain losses and painful experiences within the family had affected her emotionally, leaving her feeling overwhelmed and discouraged. The constant stress, worry, and emotional strain eventually began to impact her physical health, and she is now living with diabetes

Restoring Hope and Peace

A 53-year-old woman who has endured many struggles and emotional hardships throughout her life was visited and ministered to through counseling and prayer.

She has three children, all of whom are married and living with their own families. Several years ago, her husband left her, forcing her to carry the responsibilities of life and family on her own.

To meet her daily needs, she has been working as a laborer and has faced many challenges along the way. Although she appeared strong on the outside, she carried deep emotional wounds within her heart. Feelings of rejection, loneliness, disappointment, insecurity, and painful memories from her past had left lasting scars, affecting her emotional well-being and inner peace.

During the visit, an Inner Healing Ministry session was conducted. She was lovingly encouraged to surrender her hurts, painful memories, unforgiveness, and burdens to the Lord. Through prayer, she experienced the comforting presence and love of God in a powerful way.

As she shared the pain she had carried for many years, her heart began to feel lighter, and she experienced a renewed sense of peace. She was encouraged by the assurance that God has never forgotten her and continues to walk with her through every season of life.

By the end of the ministry session, she was filled with new hope, comfort, and strength. She expressed a desire to move forward in life with renewed faith and confidence, trusting in God's grace and guidance. Her testimony serves as a reminder that God is able to heal broken hearts, restore hope, and bring peace to those who place their trust in Him.

Bringing Hope to a Troubled Mind

This 72-year-old woman came to us in a mentally distressed and emotionally fragile condition. Due to the severity of her emotional struggles and confusion, she was unable to provide clear or accurate information about herself. Throughout the conversation, she spoke continuously, revealing signs of deep emotional pain and inner turmoil.

During our interaction, she mentioned that she was currently staying at a church, where she had found temporary shelter. Her words and behavior reflected feelings of loneliness, insecurity, and the effects of prolonged emotional hardship. It was evident that the burdens and challenges she had faced throughout her life had taken a significant toll on her mental and emotional well-being.

She was welcomed with patience, compassion, and understanding. Time was taken to listen carefully to her story and the concerns she was able to express. Counseling, encouragement, and prayer were offered, sharing with her the love, comfort, and peace of God.

During the time of prayer, she appeared calmer and was given the opportunity to release some of the burdens she had been carrying. Prayers were offered for God's protection, healing, peace, and continued care over her life. She was also encouraged to remain connected to those who could provide support and assistance during this difficult season.

This visit served as a powerful reminder that God sees and cares for those who feel forgotten, abandoned, or overwhelmed. Even in the midst of confusion and brokenness, His love continues to reach out, bringing comfort, hope, and the assurance that no one is beyond His care.

Healing from the Scars of War, Finding Hope Beyond Trauma

This 53-year-old man came to us accompanied by his 12-year-old daughter. The traumatic and distressing experiences he endured during the war have left a deep impact on his emotional and mental well-being. The memories of those painful events continue to affect him, causing ongoing emotional struggles and psychological distress.

The extraordinary hardships he witnessed and experienced during the conflict have left lasting wounds in his heart and mind. As a result, he is currently living with mental health challenges and is receiving continuous medical treatment. One of the major difficulties he faces is severe sleep disturbance, and he is only able to sleep with the help of prescribed medication.

During our visit, he was welcomed with compassion and understanding. Time was taken to listen carefully to his experiences, struggles, and concerns. Counseling, encouragement, and prayer were offered, reminding him of God's love, comfort, and faithfulness even in the midst of suffering.

Special prayers were made for emotional healing, peace of mind, and strength to overcome the burdens he has carried for many years. He was encouraged to place his fears, painful memories, and anxieties into the hands of the Lord and to trust in God's ongoing care for his life.

His 12-year-old daughter was also encouraged and prayed for, that she would grow in hope, strength, and confidence despite the challenges faced by her family. Together, they were reminded that they are not alone and that God's presence remains with them through every difficulty.

Through this ministry visit, he was given the opportunity to share his pain and receive comfort. We continue to pray that through ongoing medical care, family support, and the grace of God, he will experience greater healing, renewed hope, and lasting peace in the days ahead.

From Rejection to Hope, A Journey of Healing and Restoration

This 44-year-old individual has faced numerous hardships and emotional struggles throughout life. A series of painful experiences, including significant personal losses, financial fraud, and rejection by family members, had deeply affected his emotional and mental well-being.

The betrayal and disappointment he experienced from people he trusted, along with financial setbacks, left lasting wounds in his heart. As a result, he struggled with anxiety, discouragement, insecurity, and uncertainty about the future. The lack of support and acceptance from his family further intensified his feelings of loneliness and emotional pain.

During our visit, time was taken to listen carefully to his life experiences, struggles, and concerns. He was offered compassionate counseling, encouragement, and prayer. Through the ministry session, he was guided to surrender his hurts, disappointments, feelings of rejection, and heavy burdens to the Lord.

As prayer was offered, he experienced God's love, comfort, and reassurance in a meaningful way. Sharing the pain he had carried for many years brought a sense of relief and peace to his heart. Although life's challenges had left him wounded, he was encouraged by the assurance that God had not forgotten him and continues to care for and guide his life.

By the end of the ministry session, he appeared more hopeful and encouraged. He expressed a renewed desire to move forward without being held captive by the pain of the past, choosing instead to trust in God's grace and strength for the future. His story is a testimony that God can bring healing to wounded hearts, restore hope where there has been despair, and provide new purpose for those who place their trust in Him.

Finding Hope After an Unexpected Loss

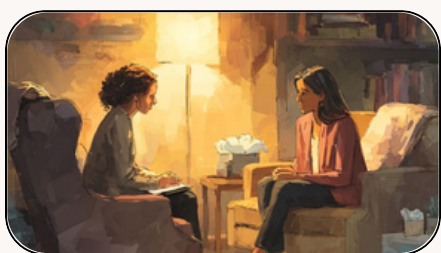

A She is a 26-year-old young mother with an 18-month-old child. Approximately 20 days ago, her husband tragically lost his life in a sudden accident. This unexpected loss has completely changed the course of her life.

As she grieves the loss of her husband while caring for her young child, she carries an overwhelming burden of sorrow and uncertainty about the future. She continues to struggle with the trauma of her husband's sudden death, and the painful memories of that day have deeply affected her emotional well-being.

During this difficult season, she is in great need of emotional comfort, compassionate support, and inner healing to help her process her grief, regain hope, and move forward with strength and confidence as she cares for her child.

Restoring Hope Beyond Grief and Rejection

B She is a 26-year-old young mother with a 6-year-old son. Approximately one year ago, her husband passed away suddenly due to a serious illness. His unexpected death left an immeasurable void in her life.

Rather than receiving comfort and support after her husband's passing, she has experienced ongoing emotional distress within her husband's family. She has been treated without dignity and has lived under significant restrictions. She has also been prevented from maintaining contact with her own parents and siblings, leaving her isolated from the love and support of her family.

One of the most heartbreaking aspects of her situation is that circumstances have prevented her from developing a close and affectionate bond with her 6-year-old son. As a mother, this has caused her profound emotional pain and deep sorrow.

The combined effects of grief, isolation, family rejection, and prolonged emotional distress have left her feeling overwhelmed and hopeless. She is in great need of emotional comfort, compassionate support, and inner healing to help her recover from these painful experiences, regain hope, and move forward with renewed strength and confidence.

From Fear to Hope

C She is a 26-year-old mother of two young children. For the past eight years, she has endured ongoing domestic violence and severe emotional abuse within her marriage.

Since the beginning of her married life, her husband has repeatedly subjected her to both physical and emotional abuse. She has sustained numerous injuries after being beaten with wires and iron rods, and scars from these assaults remain visible on her body. She also continues to bear the mark of a serious head injury caused by being struck with an iron rod. Years of abuse have had a profound impact on both her physical and emotional well-being.

Having grown up as an orphan, she has no parents or close family members to support her. She entered marriage hoping to find love, security, and a place to belong. Instead, she has endured years of pain, fear, and suffering.

Although she longs to leave the abusive relationship, she fears for her own safety and the safety of her children. Concern about the risks she may face if she leaves has forced her to remain in an environment marked by fear and uncertainty.

The prolonged effects of domestic violence, isolation, insecurity, and emotional trauma have left her deeply distressed and emotionally exhausted. She is in urgent need of a safe and supportive environment, compassionate care, and inner healing to help her recover from her traumatic experiences, restore hope, and rebuild her life with strength and dignity.
