A Cry from the Heart of Amma

Amma

Last week, I went to watch a fantastic drama called **"The Jungle and the Sea."** It portrayed the story of a Tamil family in the Vanni during the war—the LTTE, the dominance of the Army, the bitter struggle of the family to survive, the romance of the eldest daughter with a young Sinhalese man, the father's eventual escape to Sydney with one of his daughters, and the painful aftermath of the war.

The story was brilliantly portrayed.

For nearly three hours, I sat spellbound. When the curtain finally came down, I stood up—not simply to applaud the actors, but to **honour this family and the thousands upon thousands of people who endured such terror, loss and trauma.**

I came home and wept before God. My cry was:

"Lord, who is going to heal these broken hearts and shattered lives?"

This is at the heart of what **Jesuran Aravanaikkum Karam (JAK)** is trying, in its small but dedicated way, to do. Our vision is not simply to provide material assistance. We are seeking to bring **inner healing and trauma healing, to help reconstruct broken lives, restore hope and dignity, and meet basic physical needs** through our Medical Mobile Clinics, conducted twice a month.

That night, I cried before God again: **"Why is it that, apart from a handful of faithful sponsors and donors, so little support comes from the wider Tamil community around the world?"**

I know that many are generously giving towards orphanages, institutions, broken homes and other worthy causes—and for that, I am truly grateful. But there is another great need that can easily remain invisible:

THE BROKEN SOUL.

Buildings can be rebuilt. Homes can be reconstructed. Institutions can be established. But **who will rebuild the wounded heart? Who will help heal the trauma? Who will restore hope to those who have carried their pain for decades?**

The people of Jaffna and the Northern Province need more than physical reconstruction. **They desperately need the rebuilding of the inner person.** Only God can awaken this awareness in the hearts of people.

JAK is doing its utmost to fulfil the ministry vision and mandate God has entrusted to us. We cannot do it alone.

Please support us. Please pray for us. Please stand with us. And please take a moment to browse our website and learn more about what we are doing.

Every prayer, every contribution and every act of support can become part of someone's journey from **trauma to healing, from despair to hope, and from brokenness to restoration.**

With Love & Blessings,

Amma - Melbourne

Ps Hilda Samuel

FREE MOBILE MEDICAL CAMP

HOPE IN EVERY HEART, HEALING IN EVERY LIFE

By the abundant grace of God, a Medical Outreach and Inner Healing Ministry was successfully conducted on 31 August 2026 in Thaavadi. The community faces several socio-economic and social challenges, including a lower level of educational opportunities, a high number of daily wage workers, many children and widows, and limited access to free medical services. The area is also affected by drug and substance abuse, creating further challenges for families and young people.

In the midst of these difficulties, our team had the privilege of bringing medical care, compassion, and hope to the community. We were deeply blessed by the dedicated service of Dr. Mithira, who compassionately attended to the health needs of the people. Through medical consultations and essential care, individuals were given an opportunity to receive medical attention that is not always easily accessible to them.

By the end of the outreach, 50 people benefited from the medical consultations and care.

Alongside the medical services, the Inner Healing Ministry provided a safe and compassionate space for individuals to share their burdens, emotional struggles, and personal concerns. Through prayer and encouragement, they were reminded of God's love and His presence in the midst of their difficulties. Many were encouraged and strengthened to face their circumstances with renewed hope.

This outreach was a beautiful reminder that God has not forgotten the people of Thaavadi. Through medical care, prayer, and compassionate service, we were able to demonstrate the love of Christ and bring hope to those in need.

We are deeply grateful to Dr. Mithira, our faithful prayer partners, supporters, and everyone who contributed to making this outreach possible. We continue to pray that God will bring healing, restoration, freedom from destructive habits, and lasting hope to the families and community of Thaavadi.

August Special Prayer Gathering

Empowering Faith Through Prayer

Jesuran Healing Centre Weekly Prayer Gathering

United in Prayer, Strengthened by His Presence

By God's abundant grace, we were blessed to hold our August Special Prayer Gathering at the Deliverance Prayer House. It was a meaningful time as our pastors and staff came together in worship and prayer, seeking God's presence and renewing our strength for the ministry entrusted to us.

Our weekly prayer meetings also continue to be held every Thursday at our JAK office, where we pray for the work of the Jesuran Healing Center, the families and communities we serve, and our upcoming outreach programmes and medical camps.

These times of prayer continue to strengthen us spiritually and encourage us to serve with unity, faith, and Christ-like love.

Where two or three are gathered in My name, I am there among them." - Matthew 18:20

UNITED IN PRAYER, STRENGTHENED BY GRACE

A Journey from Pain Towards Healing

This 22-year-old young woman lost her father and has faced many challenges throughout her life. These experiences had left deep emotional wounds and pain within her heart.

It was revealed that she had been struggling with deep emotional distress for the past three years. She had also been experiencing persistent headaches and difficulty sleeping. Although she appeared normal on the outside, she was carrying many unspoken burdens and hidden pain within her heart.

During the Inner Healing session, the wounds and pain from her past were brought before God, and she was lovingly supported through prayer. She was given a safe space to express her pain and experience God's love, comfort, and peace.

Through prayer, she began a new journey of gradually letting go of the pain of her past and discovering renewed hope in God.

There is healing for every broken heart in God. Even in a life where hope has been lost, God can create a new beginning.

A New Hope Amidst Life's Struggles

This 45-year-old mother has been facing many challenges since the loss of her husband. She carries the responsibility of her family on her shoulders, working as a daily wage labourer to provide for and raise her two daughters.

The grief of losing her husband, financial struggles, and concerns about her daughters' future have placed many burdens upon her. Although she appears strong on the outside, she has been carrying years of unspoken pain, worries, and emotional burdens within her heart.

In the midst of these struggles, she received Inner Healing Prayer. Her losses, wounds, and emotional burdens were brought before God, and she was lovingly supported through prayer and faith.

Through this time of prayer, she was encouraged to surrender her burdens to God and experienced His love, comfort, and renewed hope. Although her circumstances may not have changed immediately, she began a new journey with the assurance that God is with her and will strengthen her through every challenge.

Our struggles do not have to define our lives; the hope we find in God can open the way to a new beginning.

Hope in the Midst of Waiting

This 30-year-old young woman got married two years ago. As she has not yet been blessed with children, she has been experiencing emotional distress, worry, and deep concern.

The questions, expectations, and comparisons from those around her had placed additional emotional pressure on her. Although she appeared calm on the outside, the longing for a child and uncertainty about her future had become a heavy burden in her heart.

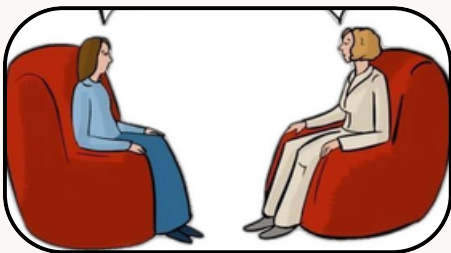

In the midst of this, she received Inner Healing Ministry. Her worries, fears, and emotional burdens were brought before God, and she was lovingly supported through prayer and faith.

Through this time of prayer, she was encouraged to surrender her situation to God and experienced His love and peace. She was reminded that God has a purpose and a perfect timing for every season of life, and she was encouraged to continue waiting with faith and hope.

Some answers come through seasons of waiting, but even in the waiting, God is with us

A Grandmother's Hope Amidst Many Burdens

This 81-year-old woman is a widow who has been carrying a heavy responsibility despite her age. After her daughter left her three children, she took on the responsibility of caring for and raising all three grandchildren herself.

Despite the challenges and physical limitations that come with old age, she continues to do everything she can to care for them. However, her grandchildren often do not listen to her and have been making unhealthy and unwise choices in their lives. This has caused her deep emotional distress and concern, especially as she worries about their future.

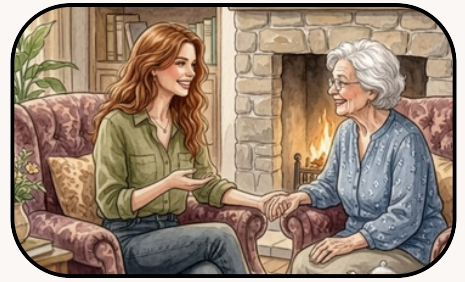

In the midst of her struggles, she received Inner Healing Ministry. She was given a safe space to express her pain, worries, disappointments, and the burdens she had been carrying concerning her grandchildren. She was lovingly supported through prayer and faith.

During the prayer, she was encouraged to surrender her burdens to God and place the lives and future of her grandchildren into His hands. She experienced renewed comfort and hope, trusting that God is with her despite her age and difficult circumstances.

No matter how heavy the burdens we carry may be, when we surrender them to God, He brings comfort to our hearts and gives us renewed hope.

God's Comfort in the Midst of Pain

This 72-year-old woman lives with her 82-year-old husband. At their advanced age, life has become increasingly difficult, especially as her husband has lost the use of both legs and depends on her for his daily care and support.

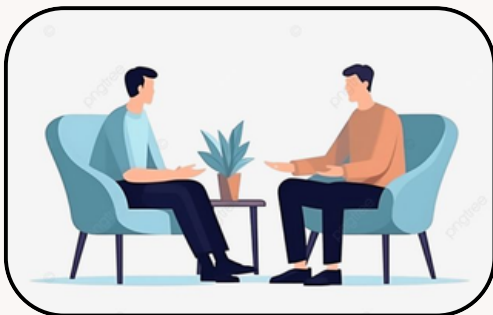

In addition to caring for her husband, she also faces difficulties with their 39-year-old son, who separated from his own family and came to live with his elderly parents. Due to his harmful behaviour and the way he treats them, the elderly couple has been experiencing ongoing emotional pain and distress.

The physical condition of her husband, the difficulties caused by her son, and the responsibilities she carries at her age have placed a heavy burden on her heart. She had been living with deep sadness and emotional distress, carrying much of her pain silently.

In the midst of these struggles, she received Inner Healing Ministry. Her pain, fears, disappointments, and deep emotional wounds caused by her family circumstances were brought before God, and she was lovingly supported through prayer and faith.

Through prayer, she was encouraged to surrender her burdens to God and seek His peace and comfort even in the midst of her difficult circumstances.

From Weakness to Hope

This 40-year-old man has been unable to walk from the waist down due to polio and lives with the support of crutches. Because of his physical condition and life circumstances, he had been experiencing emotional distress and anxiety about his future for a long time.

In this situation, Healing Ministry was carried out for him. Through prayer, he was encouraged to surrender his pain and worries to God. He was reminded that God knows his life and that He has a purpose for him.

Through this ministry, a new sense of hope and peace began to grow within him. He is beginning to understand that his circumstances do not define him and is moving forward with hope, trusting in God.

From Pain to Hope

This 35-year-old woman is a mother of two children and had been living with her family. Her 40-year-old husband had been unfaithful to her and was involved in an inappropriate relationship with another woman. His betrayal caused deep emotional wounds and immense pain in her family life.

Because of this relationship, her husband became addicted to destructive habits such as alcohol consumption and smoking, and he also began physically abusing her. His unfaithfulness, continuous abuse, and the problems within the family caused this mother to experience deep hopelessness and despair.

At one point, feeling that she could no longer bear the pain, she attempted to end her life. However, by God's grace, she was rescued.

Even after this incident, she struggled to recover from what had happened and continued living with deep emotional distress, fear, anxiety, and a lack of hope for the future. Although she appeared calm on the outside, her heart was carrying many deep wounds and pain that she could not express.

In this situation, Inner Healing Ministry was carried out for her. Through prayer, she began to surrender to God the pain, feelings of rejection, fear, and broken trust that she had been carrying in her heart for so long.

During the ministry, she was reminded that God knows every wound in her life and that she is not alone. Slowly, she began to understand that her worth and value are not determined by her husband's actions.

Although her circumstances have not changed overnight, a new hope has begun to rise within her heart. She is beginning to understand that the pain of her past does not have to be the end of her story.

The mother who once felt that ending her life was the only way to escape her pain is now beginning to move forward with hope, believing that God still has a purpose for her life.

We continue to pray that God will bring complete healing, peace, restoration, and strength into her life and that He will guide her and her family into a better future.

A New Hope Amidst Illness

This 24-year-old young man may be an adult by age, but his appearance is more like that of a 16-year-old. Since childhood, he has suffered from various illnesses, which have affected his physical development and greatly limited his life.

He is still struggling with illness today and, because of his health condition, has been unable to continue his education. He is also unable to do any form of work and lives with significant physical weakness and ongoing health challenges. As a result, he has been experiencing deep emotional pain and concern about his future.

In this situation, Healing Ministry was carried out for him. Through prayer, he was encouraged to surrender his pain, fears, and worries to God. He was reminded that, regardless of his physical condition, he is precious in God's eyes and that his life has a purpose.

His illness and weakness do not define his life. He is beginning to look toward the future with renewed hope, trusting in God.
